About us

Royal Marine Services is the parent company of a group of organizations specializing in fuel, Lubricants, operational and financial solutions to the maritime and energy trading industry around the world. We operate globally with our clients in shipping lines

Royal Marine Services was established In Egypt (Alexandria) since 2007 by a team of experts in the marine industry, consisting of advisors and traders with long established, world-wide relationships with major oil corporations, bunkers, shipping operators, and Owners

We are represented by multiple companies worldwide and are currently operating in different countries and several ports. Our head offices work together with local companies and business partners to provide capital, systems and know-how that demonstrate our ability to maintain operational standards to enhance customer satisfaction and first class service.

Since Feb 2014 We have been granted the sole agency for Marine Lubricants of **OILIBYA** .

Royal Marine Services served a lot of Petroleum , Oilfield Services & Industrial leading Companies

Royal Marine Services & environment

Royal Marine Services always been dedicated for promoting a safer , cleaner planet. From the start, we've taken the most precautions to ensure safety in all bunkering procedures and minimize the likelihood of accidents.

In line with our strict focus on quality in all our products and services, we employ environmentally friendly vessels, equipment & additives.

Growing eco-awareness and environmental responsibility in the industry has led to the establishment of Sulphur emission control areas (SECA). Naturally, we can deliver fuel compliant with the regulations in such areas, as well as in other areas upon request.

Choose a fuel & Lubricants supplier you can trust.
