

MarineGard

570

Quality specifications

Meets: N/A

Product Description

MarineGard 570 is a high-quality oil cylinder of marine diesel engine. It offers a maximum protection against adhesive and corrosive wear at high temperatures and pressures of modern engines. MarineGard 570 contains additives providing significantly increased thermal resistance, and superior protection against acid corrosion.

Features and Benefits

- Excellent wear control and extends engine life.
- Excellent thermal stability and oxidation resistance to extended periods between inspections, overhaul and cleaning.
- Excellent Detergent/dispersivity properties to keep engine clean and extend its life
- Offer a strength corrosives wear protection

Applications

MarineGard 570 is a high-quality oil cylinder of marine diesel engine. It offers a maximum protection against adhesive and corrosive wear at high temperatures and pressures of modern engines. MarineGard 570 contains additives providing significantly increased thermal resistance, and superior protection against acid corrosion.

- Diesel marine and industrial medium speed engines operating on heavy fuels oils or high sulphur content distillate fuels
- Modern engines in intensive use

Typical Properties

	Method	Unit	Typical Value
SAE Grade			50
Viscosity @ 40°C	ASTM D 445	cSt	240
Viscosity @ 100°C	ASTM D 445	cSt	20
Viscosity Index	ASTM D 2270		104
TBN	ASTM D 2896	mg KOH/g	70.6
Pour Point	ASTM D 97	°C	-9
Flash Point	ASTM D 92	°C	256
Density @ 20°C	ASTM D 4052	kg/l	0.93

Health and Safety

This product used as our recommendation for intended application not expected to produce any particular risk. A safety data sheet of this product is available for a simple request from your sales contact office or via internet. In case of used oil elimination, please respect the regulation and protect the environment.
